DANG MINH QUAN (DK)

Undergraduate Researcher | Computer Science (IT1), SoICT - HUST
Email: quan.dm@hust.edu.vn | GitHub: github.com/dangminhquandk | Web: dangminhquandk.github.io

EDUCATION

Hanoi University of Science and Technology (HUST) - School of ICT
B.S. in Computer Science (IT1) | 2024 - 2028 (Expected)
Cumulative GPA: 4.00 / 4.00 (Classification: Excellent / Xuat sac) | Training Score: 96 / 100

RESEARCH AFFILIATIONS & ADVISORS

- Software Engineering and Decentralized Systems (SEDS) Lab
  Advisor: Dr. Tran Van Dang | Focus: Distributed Graph Processing, Apache Spark, Provenance
- AI4Code Research Laboratory
  Advisor: Assoc. Prof. Huynh Quyet Thang | Focus: Software Security, Vulnerability Prediction

RESEARCH MANUSCRIPTS IN PROGRESS

- Distributed Graph Processing and Provenance Tracking in Large-Scale Analytics
  Mentored by Dr. Tran Van Dang, SEDS Lab (Manuscript in Preparation)
- Deep Semantic Graph Representation for Vulnerability Prediction in C/C++ Codebases
  Mentored by Assoc. Prof. Huynh Quyet Thang, AI4Code Lab (Research in Progress)

KEY TECHNICAL & RESEARCH PROJECTS

- Real-time Clickstream Data Pipeline: Kafka, Spark Structured Streaming, Parquet Lakehouse, MinIO
- MarketLens: E-commerce Association Rule Mining (Apriori Algorithm) on UCI Retail Data
- High-Performance Spam Filtering Engine: Modern C++17 from scratch (Naive Bayes & KNN)
- VUA TSA BACH KHOA: Educational ecosystem for logic reasoning (TSA), calculus, and algorithms

ACADEMIC HONORS & AWARDS

- Talent Encouragement Scholarship Type A (Hoc bong KKHT Xuat sac) - HUST (GPA 4.0/4.0, Training 96/100)
- TKV Corporate Talent Scholarship (Vietnam National Coal and Mineral Industries Holding)
- Second Prize, City-level Physics Olympiad (Grade 12), Hanoi
- Third Prize, City Science & Engineering Fair (ViSEF / NCKH), Hanoi
- HUST Thinking Skills Assessment (TSA) Entrance Score: 89.97 / 100
- National High School Graduation Exam Score (Group A00): 28.85 / 30.00 (Math 9.6, Phys 9.75, Chem 9.5)

TECHNICAL SKILLS

- Distributed Systems: Apache Spark, Spark SQL, Structured Streaming, GraphFrames, Apache Kafka, MinIO
- Programming & Systems: C++17/20 (STL, cache-friendly design), Python (Pandas, Scikit-learn), Linux/POSIX
- Program Analysis: AST & Control Flow Graphs (CFG), Vulnerability Modeling, Static Code Analysis
